

KIMBERLY CHARMINE C. LOPEZ

Full-Stack Software Developer

Fairview, Quezon City | lopezkcc714@gmail.com | +63 977 652 0948

SUMMARY

Software developer experienced in building and maintaining production web systems for warehouse, production, purchasing, and finance operations. Backend Software Developer at Meatplus Trading Corp. with full-stack responsibilities across Laravel/PHP, MySQL/MariaDB, JavaScript, frontend interfaces, system integrations, and operational workflows.

TECHNICAL SKILLS

Primary: PHP, Laravel, JavaScript, MySQL, MariaDB, SQL, Git

Frontend: Blade, Tailwind CSS, Alpine.js, Bootstrap, React.js, Ionic

Additional: Python, Java, C#, C++, PostgreSQL, Oracle, Firebase | **Tools:** VS Code, Vite, SAP, Burp Suite, Android Studio

EXPERIENCE

Meatplus Trading Corp.

Nov 2025 - Present

Backend Software Developer (Full-Stack Responsibilities)

Quezon City

- Co-develop internal web systems used across production, warehouse, purchasing, and finance operations, translating day-to-day business processes into database-driven workflows.
- Build full-stack features using Laravel/PHP, MySQL/MariaDB, JavaScript, Blade, Tailwind CSS, and Alpine.js, including backend logic, database operations, validation, and user interfaces.
- Collaborate as one of two developers on feature delivery, debugging, testing, reporting, document generation, data import/export, and role-based access controls.

moodLearning, Inc.

Feb 2025 - May 2025

IT Intern - Web Developer

UP Diliman, Quezon City

- Developed responsive React.js and Ionic interfaces and supported testing, debugging, and deployment for a cross-platform client application.

SELECTED PROJECTS

PMAI Warehouse System

Meatplus Trading Corp.

- Co-developed an end-to-end production and warehouse traceability system covering production weighing, QR-coded crate identification, receiving, storage, stock movement, and dispatch.
- Implemented inventory, pallet/storage, issuance, stock-transfer, production-record, and picklist workflows, plus QR scanning, reporting, audit functions, and Excel/CSV import/export.

Technologies: PHP, Laravel, MySQL/MariaDB, Blade, Tailwind CSS, Alpine.js, JavaScript, Vite, Git

SOPOD - Purchasing & Accounts Payable System

Meatplus Trading Corp.

- Co-developed a Laravel-based internal system connecting purchase requests, purchase orders, receiving approvals, AP invoices, requests for payment, check vouchers, and general-ledger data.
- Contributed backend business logic, database operations, administrative interfaces, validation, PDF/document generation, Excel handling, and user-role/permission controls.

Technologies: PHP, Laravel, MySQL, JavaScript, Bootstrap, Tailwind CSS, AdminLTE, Vite, Git

EDUCATION

Technological Institute of the Philippines
